Visual & Brand: Brand Identity, Visual Systems, Campaign Design, Social Media Design, Pitch Decks, Product Visuals

Tools: Figma, Claude, Claude Design, Google Stitch, Lovable, FigJam, Adobe Photoshop, Adobe Illustrator, Lightroom, CorelDRAW, Canva, Miro

Professional Experience

Zeeframes *Jun 2026 – Sep 2026*

UI/UX Designer

- Owned the end-to-end design of a B2B customer-health analytics platform (Dashboard, Customer Account Detail, Segments), from user flow and information architecture to final UI across desktop, responsive web and mobile app, in light and dark themes.
- Architected a scalable Figma design system: variant-based component library (20 button variants, status badges, metric and insight cards, tables, filters) built on semantic colour, radius and typography variables that drive theme switching.
- Structured dense analytics data into a clear hierarchy so customer success teams can scan portfolio health, identify what changed an account's status and act in a few steps.
- Mapped decision-based user flows for risk response, including branching, loop-backs and defined outcomes, and designed error, loading, empty and success states plus interactive overlays.
- Maintained consistent navigation, layout and spacing logic across breakpoints, and delivered organised, developer-ready files.

Wurx Media *Aug 2025 – Present*

Graphic & UI/UX Designer

- Design UI screens, pitch decks, case studies and brand identity assets across multiple client projects, building consistent visual systems for product and marketing communication.
- Create supporting brand materials (book covers, campaign assets, promotional visuals) and work with marketing teams to align design execution with campaign strategy.
- Apply AI tools (Claude, Claude Design, Google Stitch, Lovable) across the design workflow to speed up concepting, prototyping and iteration while keeping Figma as the source of truth.

Aexon X Huawei *Jun 2024 – Jul 2025*

Graphic Designer / Media Manager

- Managed full-cycle creative production for digital campaigns and promotional content.
- Produced high-volume marketing creatives aligned with corporate branding standards.

Metacodecs Technologies (Pvt) Ltd *Mar 2024 – May 2024*

Creative Designer

- Created wireframes, interface layouts and prototype improvements for digital products.
- Improved usability and visual structure of product interfaces.

Sockoye *Aug 2023 – Feb 2024*

Graphic Designer

- Designed e-commerce product visuals and social media content for digital engagement.
- Maintained a consistent brand identity across multi-platform content.

eDrive *May 2023 – Jul 2023*

Graphic Designer

- Created promotional campaigns and marketing assets for digital brand communication.
- Improved visual consistency across marketing materials.

Qi Solutions *Jan 2023 – Apr 2023*

Graphic Designer

- Designed UI-focused visual assets and contributed to structured design systems for digital platforms.
- Maintained interface and brand consistency across web-based products.

Selected Projects

BoltShift – B2B SaaS, Customer Success Management

Customer intelligence dashboard for spotting at-risk accounts, understanding why account health changed and creating follow-up actions.

LensesOnline – E-Commerce, Eye Care

UI redesign of an online eye-care retailer, covering the product, prescription and checkout experience.

Zapier AI Landing Page (Concept) – SaaS, AI Automation

Landing page redesign presenting Zapier's AI automation, MCP and SDK offering and enterprise governance, designed in light and dark themes for desktop and mobile with animated carousel components.

Stichting Sportpark – Public Sector, Sports & Recreation

Website design for a Dutch community sports facility, with the original Dutch content kept.

Visual Design Portfolio – Brand, Graphic & Campaign Design

Selection of brand identities, campaign posters, e-commerce visuals, social posts and covers across beauty, food, consumer and energy brands.
